

Are you an urban gardener?

Do you want to support sustainable urban farming?

Share your experiences on how YOU grow vegetables in the city

Complete our Urban Garden Experiences survey online

The Sustainable Resource Management Lab at Linköping University would like to invite urban gardeners to participate in a survey to share their experiences of management practices in urban agriculture.

If you're currently growing vegetables in raised beds, your backyard, allotments, or community gardens, we'd love to hear from you!

This information will help design strategies to enhance the benefits of urban gardens by understanding their impacts on environmental sustainability.

Scan the QR code to visit Urban Garden Experiences survey or go to <https://forms.office.com/r/Dk9tGnkmcF>
